

THREE R's

RECYCLE

- It consist of submit used materials or waste to a transformation or recovery process so that they can be used again.

OBJECTS OR THINGS TO RECICLE

- Plastic bottles.
- Detergent of bottle, shampoo, gel, etc.
- Potato bags.
- Plastic caps and plugs.
- Plastic bags (except garbage bags).
- Yoghourt tubs and lids.

Reuse

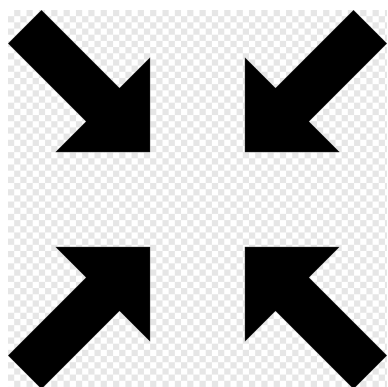

- Reuse consists of giving a material a maximum useful life. One of the ways is to use products that can be used many times, such as cloth bags for shopping, glass jars for storing preserves, glass bottles for cold water in the fridge, etc.

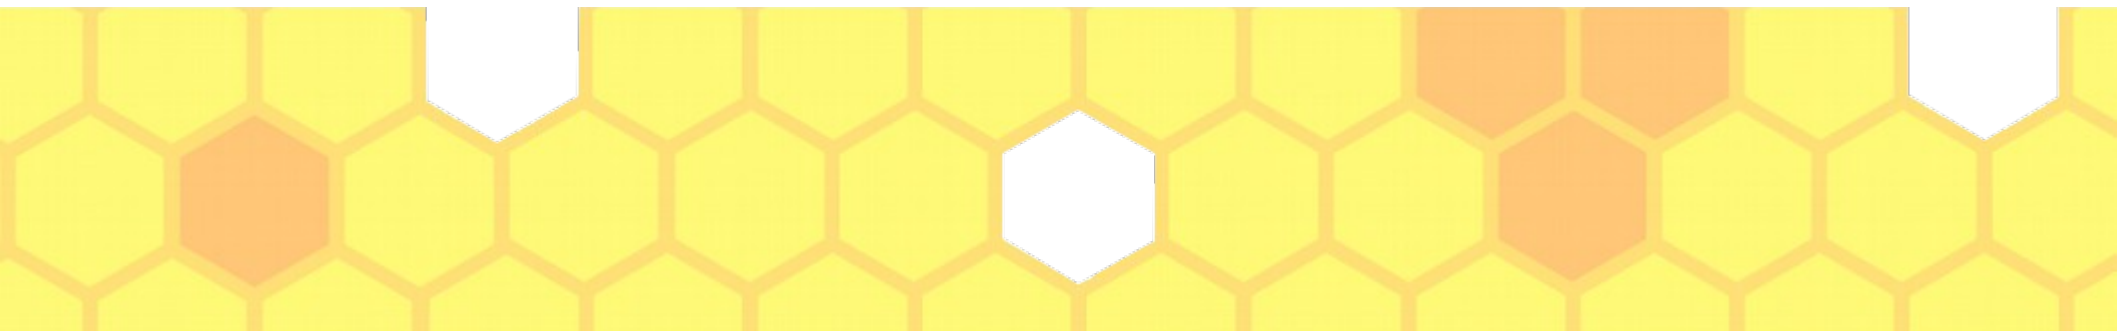

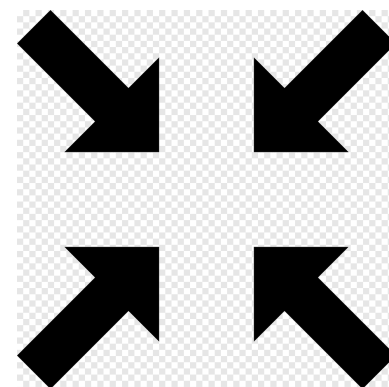

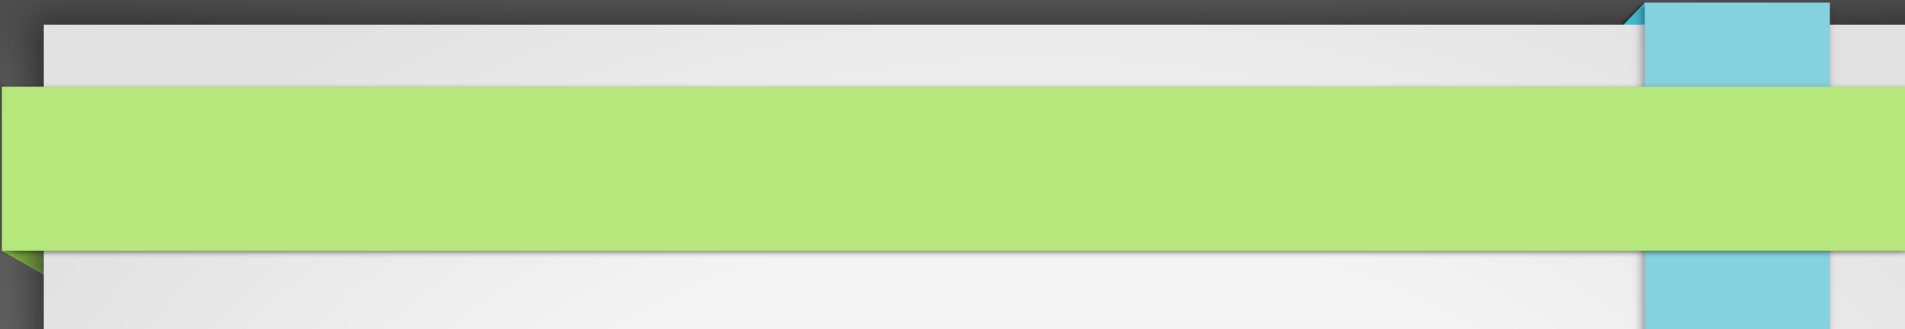

- To use something again, generally with a different function than the one it originally had.

REDUCE

- 
- Reducing consists of decreasing the consumption of an object, energy,...
 - Energy consumption must also be reduced by making conscious use of natural resources, for example, unplugging electrical equipment when it is not in operation, among others.
